

Launceston Film Society

Do it yourself QR code – option if you don't want to use the Cardskipper app

(uses one of the many online sites – this one doesn't involve any fees or memberships)

1. Enter **qrcode.kaywa.com** into the search bar of your browser
2. Click **more v** (at right above **JOIN** and **GENERATE**)
3. Select **text**
4. Enter your membership number (just the number, no spaces, no full stop)
5. Click **GENERATE**
6. Right click in the image
7. Select copy image
8. Open up a word document and paste (CTRL V)
9. Save this document and print off your QR code to present at the cinema. Print several whilst you're about it.
10. You can laminate it, stick it to a card – whatever suits you.
11. If you have a non-smartphone you can take a picture of the code and save the picture in favourites and show that at the cinema.

Your QR code will look similar to this – you can test it using your phone if it has a QR reader app – it should read your member number
